DIGITAL AD PLACEMENT

Ad-banner placed on www.dgok.de

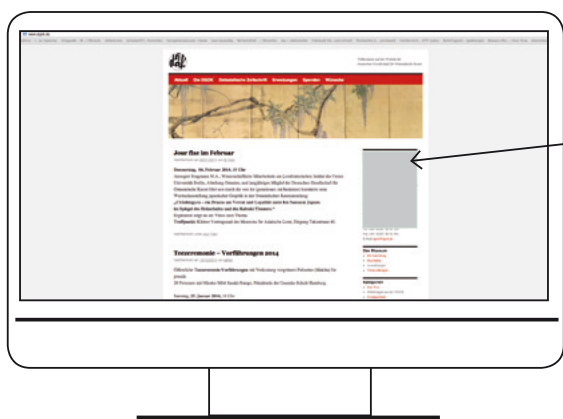

A sampling error free analysis of the usage of our website (www.dgok.de) from 1.1.2013 till 12.31.2014 evidenced the following:

In 2013 it received 135 daily hits from users, not only from the German language sphere, but also from chinese search engine Baidu and Google Japan. We are offering you the traditional Newspaper based ad placement in a prominent location on our

homepage as a "Skyscraper ad" with meaningfully increased visibility. We then "rotate" the ads within the timeframe of the equivalent printing magazine edition. (The Exposer Setups are configured so to give each Ad equal exposure)

This would improve the effectiveness of your advertisement, for which we are of course very grateful.

When clicking on the ad an external browser window opens and links the user to your homepage.

Your Skyscraper Ad

- Place: **Home-Site of dgok e.V.**
Fixed Frame which is **always visible** on Page
- Timeframe: until the next edition of OZ
- **135 clicks** daily,
- a **link** with mouseover brings the user to your Homepage. Linkdata measurement occurs with in the user analysis of your website.
